

# 1,500 CARRIER PLANES RIP JAPAN ANEW

## USS INTREPID — 'MOST FREQUENTLY HIT AIRCRAFT CARRIER' — STILL FIGHTS

The USS Intrepid was aptly named. Four times she was battered into flames by Jap air action, and four times the big Essex-class carrier returned to action. Most frequently hit carrier in the Navy, she first got it at Truk, Feb. 16, 1944. In action again, off Luzon on Oct. 29, the big flattop took one of the first successful Jap suicide hits. Fighting again on Nov. 25, the Intrepid was turned into a blazing gasoline-fed inferno (above) after two Kamikazes rocketed into her flight deck. Back in combat, carrying the war to Japan's home islands, she was hit a fourth time on April 16, 1945, by a suicide. Those wounds healed, Intrepid is now raining destruction on the enemy, with a record of sinking 80 enemy ships and destroying 650 aircraft.

## The War Today..

### British Labor Victory

BY DEWITT MACKENZIE  
AP Foreign News Analyst

THE LONDON TIMES (known both as the Thunder and as the Englishman's Bible) remarks of British labor's great victory that there is no reason "why the world should look for any revolutionary change in foreign—or indeed—in domestic policy."

Having lived in England many years your columnist accepts that as a fair appraisal. The land of Cedric the Saxon—aristocracy, middle-class and labor—rarely has leaped without taking a good look. However, we shall make a mistake if we don't recognize this political turn-over as epochal, not only for Britain but for the world. What might be regarded as a passing storm in one of the more inflammable countries of the continent cannot be dismissed lightly in this England.

The voters of this traditionally conservative country have given a clear mandate to try the experiment of socialistic nationalization. Of course we needn't worry about this affecting John Bull's pledges regarding the war and global rehabilitation. His word is his bond. Still, this "swing to the left" is likely to affect the outside world both politically and economically.

We may expect, I believe, that socialism's surge to power in Britain will afford strong encouragement for similar movements on the European continent, which already is seething with political leftist ferment. And probably this encouragement won't be confined to the mere psychological effect, for governments like Spanish Generalissimo Franco's dictatorship can hardly look for support from Britain's new labor regime. Also, British labor is dead against what it calls Tory imperialism, and therefore there may be some modification in London's attitude towards the old zones of influence.

The economic side strikes me as being a potential black-buster unless

## Justice Jackson Demands War Criminal Trials Begin Soon

(By Associated Press)

LONDON, July 30.—An authoritative American source said today Justice Robert H. Jackson had told British, Russian and French representatives that an agreement must be reached this week on plans for trial of war criminals.

Jackson is special U. S. prosecutor for the war crimes trial.

The source said Jackson took the

position unless talk stops and action starts, the United States will move alone toward bringing the major war criminals to action.

The American Supreme court justice holds a strong hand since a majority of the Germans likely to stand trial as war criminals are in U. S. hands. These include Hermann Goering, Joachim Von Ribbentrop, Julius Streicher, Robert Ley and high-ranking generals in Adolf Hitler's army.

## Friends Conclude Anniversary Rites With Sunday Service

Mrs. Irene Townsend Whitton of E. Sixth st. and Miss Martha Williams of Franklin st. were the oldest members, from the point of membership, in attendance at the Centennial celebration of the First Friends church held over the weekend at the church. Both have been members since 1893. John C. Ghold, 87, of Salem, the oldest member from point of membership, was unable to attend.

One member of the church, Mrs. Mary Kyser of W. Sixth st. will be 90 years old tomorrow.

Other members who are over 80 years of age are: Mrs. Lena Lewis, Mrs. Kate Capel, Miss William, Mrs. Viola Oltip, Mrs. Della Haven, Mrs. Cordelia Litty, Wesley Herbert, E. R. Cole, L. L. Park and L. S. Baker.

Mrs. Lewis has been an elder in the church for many years. Mrs. Capel has an unusual attendance record in that she rarely ever misses any appointed service of the church.

Two former pastors, Dr. Willis Hotchkiss of Cleveland and Rev. Charles E. Haworth of Beloit attended the celebration and both had part on the program. Dr. Hotchkiss spoke Saturday night and Sunday morning and Rev. Haworth gave a talk, "At Prospect Point" at the historical and homecoming service Sunday afternoon. At this service the pastor, Rev. R. E. Mosher reviewed the history of the church. Greetings were read from former pastors and friends by Miss Mary Herbert, chairman of the Centennial committee, and Miss Mary Walker.

Special music for the Sunday services was given by a quartet composed of Rev. Mosher, Charles Oltip, Oscar McCammon and Homer Elyson; a women's quartet from the Beloit Friends church composed of Mrs. Herman Hartley, Mrs. Harold Johnson, Mrs. James King and Miss Doris Brubaker; a vocal solo by Homer Elyson and a trio, Misses Naomi Walker, Martha and Ruth Coulson.

Rev. C. A. Roane of Alliance, superintendent of Ohio Yearly meeting of Friends, preached the sermon at the closing session Sunday evening.

## MONDORF, Luxembourg, July 30.

Top Nazis and even some of the supposed iron men who built and bossed the German military machine are going to pieces morally and physically as they wait behind barbed wire for their war crimes trials.

Records kept by the Army since this interrogation center was opened May 13 told today of the strange effect of ear and confinement on the survivors of the German clique that once ruled Europe.

The records showed that: Hermann Goering never has recovered fully from the abject fear of death he showed when first brought here;

Robert Ley, onetime overlord of German workmen, has shown a marked physical and moral disintegration and has only one friend among the dozens of German leaders held here—Julius Streicher, Adolf Hitler's No. 1 Jew buster;

Streicher, who now professes to have decided that Jews should be allowed to live unmolested, wanders around disconsolately in Ley's company, the picture of a broken man;

Dr. Hans Frank, Nazi chieftain in Poland, vacillates between hysteria and scorn, crying out that "I am a criminal";

Field Marshal Wilhelm Keitel wrote Gen. Eisenhower to protest the confiscation of his marshal's baton. Adm. Karl Doenitz, who succeeded Hitler as Fuehrer, resented being photographed with a black cross on his shirt front, and wrote to Eisenhower to tell him so.

## ONE INJURED WHEN TWO CARS COLLIDE

Raymond C. Beckle, 27, of Sharon, Pa., is in Alliance City hospital today suffering from injuries received when a car he was driving collided with another, driven by Arthur D. Carlson, 29, of Alliance, on Route 62, three miles east of Alliance, at 3:10 p. m. Sunday.

Salem State patrolmen said Beckle received a compound fracture of the left elbow and left arm, a bruised wrist and several fractured fingers.

The two cars sideswiped, patrolmen said. Passengers in the machines were uninjured.

## 3 REPUBLICAN, 2 DEMOCRATIC CONTESTS UP

### Light Vote Predicted In Primary Balloting Here Tomorrow

Republican and Democratic primaries are scheduled to be held throughout the state tomorrow and Salem voters will have just five contests, three on the GOP ticket and two on the Democratic slate, to consider when they enter the polling booths.

The voting booths will be open from 7:30 a. m. until 7:30 p. m.

Seeking renomination for mayor is R. R. Johnson, Republican incumbent, unopposed, and on the other ticket Norman Phillips, a former mayor, is running, unopposed.

Contests on the GOP ticket include candidates for the councilman-at-large positions with three to be nominated, Ned Massa and J. Don Guiley are seeking nomination along with incumbents, Fred A. Shaffer and Harry M. Vincent.

In the Third and Fourth wards on the Republican slate contests are in evidence. L. W. Hinton and John V. Emery are seeking the Third ward GOP bid for office and in the Fourth ward, Charles Cornwall, former council president, is opposing incumbent Arthur L. Hanna.

### Democratic Contests

Harold J. Astory and W. J. Breault, Democrats, are seeking the Democratic nomination in the Third ward while Paul L. Fletcher and Robert D. Tubbs are candidates for Fourth ward councilman.

Besides Johnson on the GOP slate, Atty. Henry L. Reese is seeking re-election as city solicitor, unopposed, and Orvil Hoover is again a candidate for treasurer.

C. F. Zimmerman, Republican, and A. P. DeWan, Democrat, are candidates for president of council, unopposed on their respective slates.

H. W. Pealy and Arch Wentz, Republican candidates from the First and Second wards, are unopposed for the council positions on the GOP ticket.

Democratic nominees for the councilman-at-large posts are Fred W. Koenreich, Alton M. Fenton and William E. Steffel. Three are to be nominated.

The Democrats have no candidates for solicitor and city treasurer.

### Light Vote Predicted

Election officials in the county predict one of the smallest votes in years due to general apathy on the part of the voters. Few applications for soldier ballots have been made and despite somewhat torrid campaigns being waged in East Liverpool, Wellsville and other places, little voter interest has resulted.

Bond issues and school district levies are to be considered in several communities but in Salem only local office candidates will be chosen.

All liquor and beer selling taverns will be closed tomorrow until one hour following the closing of the polls, Police Chief Ralph Stoffer said today.

## 2 MILLION GERMANS DIED IN CONFLICT

## Third Fleet Resumes Its Land Attacks

By MORRIE LANDSBERG

GUAM, July 30.—Man-made destruction hit the heart of the Japanese empire again today as the United States navy sent its bold Third fleet in to shell one big industrial city and 1,500 American and British carrier planes ripped up 60 airfields and other military installations from Kyushu to Tokyo itself.

American war power, parading from one momentous week into another, piled up triumph after triumph in a message of steel and fire that the Allied surrender ultimatum meant what it said—quit or be destroyed.

With action continuing, events recorded were:

Staff officers wrote off the groggy Japanese navy as dead following the knockout punch at the Kure naval base Saturday.

Task force 38 stood close inshore and poured 1,000 tons of shells into the important industrial and rail city of Hamamatsu, 120 miles south of Tokyo and three miles inland, leaving targets "burning fiercely."

## Six of 11 Promised Air Blows Are Delivered

The mighty Superfortress command announced "excellent results" in the bombing yesterday of six of the 11 forewarned Japanese industrial target towns, a mission accomplished without the loss of a single plane, and promised to continue its pre-announced campaign of devastation.

The Japanese radio acknowledged the surface and air attacks, and said "some 700" carrier planes participated in attacks in the Tokyo area and adjacent prefectures. The Domei agency said targets were "mainly airfields and other military installations and factories."

Domei claimed Japanese "air units" went into action, "intercepting" and "gaining war results"—a claim unsubstantiated by American and British airmen.

Domei later reported two-based

Halsey's blazing answer to Japan's rejection of the Allied peace ultimatum climaxed three weeks of unprecedented destruction that cost the enemy all her major warships.

B-29 crewmen, without a loss, wrote off six of 11 forewarned enemy industrial centers they had placed publicly on their death list; and Gen. MacArthur's Far East air forces added 700 sorties of their own to Saturday's parade of bombs across the Nipponese empire and its outposts.

Nimitz' staff issued this box score of the Allied fleet's share in the destruction since it struck Tokyo July 10:

Destroyed or damaged: 1,076 enemy aircraft and 915 ships or small craft.

Combatant ships sunk, 17; merchantmen, 133; luggers and small craft, 451.

## Surrender Demand Ignored By Enemy

(By Associated Press)

SAN FRANCISCO, July 30.—Japan will ignore the Allied surrender ultimatum, and even as the land of the Mikado rocked from the latest shower of shell and bombs, Premier Suzuki declared: "There is no change whatsoever in the fundamental policy of our government to continue the prosecution of the war."

The 78-year-old premier thus put the rejection stamp of his government on the Potsdam proclamation in a statement aired to the United States by the Federal Communications commission.

He made the statement at a cabinet press conference yesterday, Tokyo reported, and asserted "so far as the imperial government is concerned, it will take no notice of the proclamation."

As for recent heavy Allied sea and air attacks on Japan and defensive measures contemplated, Suzuki said:

"I leave this with absolute confidence in the hands of our strategists."

## City's Meters Pay Off

## FORD OPTIMISTIC ON 82ND BIRTHDAY

DETROIT, July 30.—Henry Ford, who ran an idea into a billion dollar industrial empire, recalled his 82nd birthday anniversary today more optimistic than ever.

He is convinced, he said in a statement issued at his home in Dearborn, that an era of "prosperity and standard of living never before considered possible," lies immediately ahead for the nation and the world.

He advocated "more and more industry and more and more competition," and said private industry "must be permitted to go forward unhampered."

Many of the barriers between management and labor, he added, "will dissolve when the chance is given."

## Bitter With the Sweet

Senator George's pleasant forecast of wholesale tax reduction during the first year after Japan's defeat is so easy to contemplate that the rest of his statement on financial policy probably will be ignored.

The chairman of the finance committee of the Senate also pointed out that deficit financing must stop, or the United States will weaken confidence in the value of the dollar. There are two ways to stop deficit financing—cut expenditures to fit income, or raise taxes to fit expenditures. The United States cannot dole out money to one and all and cut taxes, too. That seems likely to be the great national discovery after the war.

## How To Psychoanalyze a Lion

The enthusiasm of the brave men leaping to the task of telling all of us exactly what the British elections mean is a wonderful and fearful thing to see and hear. The world is going to be taught how to psychoanalyze a British lion in one easy lesson.

It is sharply reminiscent of what was happening a year ago next November, after the first Tuesday of the month. The gullible were being informed from all quarters that the result of the American election meant exactly what the analysis wanted it to mean. Most of them had an ax to grind.

But there is a peculiar thing about analysts. Those who must hit the nail on the head or lose their jobs do the least talking. Many of them are valued highly because they think straight, but not aloud. Political organizations, whose welfare depends on finding the correct answers, put a premium on their services.

With a view to the malarkey being put in circulation now and the brand put in circulation last November, a skeptic will greet all deductions with "Maybe so" and wait to see what the professional British politicians have made of the situation six months from now. The professional American politicians made something entirely different of the situation here than most of the mouthiest commentators did.

Since their livelihood depends on drawing the right conclusions, their judgment is worth taking more seriously than the offhand opinions of men who have nothing at stake.

## Or Else—As Demonstrated

The plan for maintaining peace after the war depends heavily on the theory that massed air power will be too potent for a single aggressor to risk. The theory is being tested at Japan's expense.

Japan now is a lone aggressor confronted with a massive concentration of air power. It is in the same relative position that a single nation defying the United Nations would occupy if their plan of cooperative security were challenged.

It is undergoing the alternative to good behavior envisaged by that plan—quick and crushing discipline administered by an aerial police force, with invasion and occupation by an international army as the final and conclusive step. The United Nations security formula for handling defiant nations—compliance or else—is being administered.

The United States is able to call its shots. It is repeating, though with heavier equipment, the procedure that demolished Germany's cities. Aside from the circumstance that Japan has been at war and is fighting the last round, instead of starting the first round, its demolition from the war is no different from the demonstration which would be made under the United Nations security plan to punish an aggressor. There is more at stake than mere victory over Japan. We are witnessing a demonstration that is the potential key to a long era of peace preserved by the threat of disciplinary air power if peace is violated.

## Advice To The Shopworn

This is a message of Dutch uncle advice to the many young women who have become housewives and food shoppers since the war began. It is prompted by the statement of OPA Director Chester Bowles that ration book 5, due in December, may be the last in the series.

Points may still be a part of your life for a year or so. But sometime you are going to have to reconvert your marketing technique to peacetime requirements. And right now isn't too soon to give you a few of the facts of prewar life, if your mothers haven't already.

Back before the war, money was a basic consideration of shopping. Nobody had ever heard of the theory that if the butcher has the beef and you have the points, then the price doesn't matter. If it had been, it would have been labeled snobbish extravagance.

Quality was also important. And the game of finding high quality at low cost (which was called "getting a bargain") was quite as exciting as knowing who has plenty of cigars and soap powder today.

Most prewar shoppers didn't know the difference between a No. 2 can and a barrel. But a lot of them knew the difference between two heads of lettuce, and could tell a good piece of meat by looking at it. You'll be able to do it, too, with practice.

The prime factors of price and quality will probably assume their old importance. And you young ladies, if you're to hold your heads up in the community, will have to overcome the habit of buying the first thing the butcher shows you, happily paying for the thumb that he weighs in with your purchase, and hurrying home to pop the precious bundle in the icebox lest it all turn out to be a dream. You'll also have to avoid the temptation of buying everything in sight for fear it won't be there tomorrow.

There will be certain strange new approaches in shopping. For instance, the grocer may smile at you and give you his solicitous attention. Don't think he's being flirtatious. His behavior will signal the return of something called competition, under which merchants actually vie with one another for your trade.

You may hear some older shoppers say such things as, "That last steak you gave me wasn't very tender. Now give me something really nice today." Don't worry, the man behind the counter won't harm her. He won't even talk back. He may even say he's sorry. That's the way things used to be.

A lot of other things may seem strange at first, too. But don't let your new-found freedom go to your head. Be a lady and keep your equilibrium. And once you get the hang of peacetime shopping, we think you'll like it. At least we always did.

## The Stars Say

For Tuesday, July 31.

THE indications are for a particularly lively and active day, with most desired affairs working at cross-purposes and demanding astute and sagacious management if there are to be any lucrative or harmonious adjustments. The business and financial interests challenge the best and cleverest abilities, with versatile and ingenious tactics. Higher-ups must be won over and all antagonisms overcome. The social and sentimental values are of importance, with professional ambitions involved.

Those whose birthday it is may encounter a year in which acumen, good sense, sound reasoning and swift action should serve adverse and inharmonious and unprofitable situations into lucrative, happy and progressive currents. The ability to note the advantage of the new, change, travel, fresh contacts and agreements, all put over with shrewd and skillful tactics may win over opposition from superiors in business, financial or professional circles. The social, sentimental and personal appeal have strong significance.

A child born on this day has exceptional versatility, with skill and ingenuity to convert adverse and inharmonious conditions into profit and happiness.

There's so much talk about meat, it's a shame we can't eat our words.

Where's Hitler? Well, we haven't noticed where they had organized any searching parties in the Bronx.

The "separation center" may be well named, but the average G. I. is willing to let it go as a divorce.

Postwar automobiles with telephones are forecast. When the little woman starts telling her cousin about her operation it's going to wipe out 25 years of traffic progress.

Gunder Haag may run the four-minute mile this year, equalling the record set by several housewives from home to butcher shop.

Europe faces a fuel shortage in the coming winter. This could be alleviated by proper use of the diaries of Axis gangsters.

## GUARDING YOUR HEALTH

Vitamins and Internal Ills

BY HERMAN N. BUNDESEN, M. D.

THE giving of vitamins to a normal person whose diet is supplying all of the necessary food substances probably has little, if any, effect. However, when a person's diet is deficient in the various vitamins, and this is what happens to many people, damage to many different parts of the body may occur.

According to Dr. Levon D. Wright, Jr., of New Orleans, vitamin deficiencies may particularly affect the intestinal tract. Vitamin A, which is found in fats such as cod liver oil and butter, is necessary for the normal action of the lining membranes of various body tissues. As a result of a deficiency of vitamin A, there are wasting of this lining membrane and suppression of the normal secretions.

Resistance Lowered. As a result of these changes the resistance of the tissues to infections may be lowered. A lack of vitamin A in the diet may produce changes in the teeth and in the lining membrane of the mouth, the stomach, intestine and bowels. If these changes may interfere with the digestion and absorption or taking up of food substances from the bowels.

Dr. Wright thinks that lack of vitamin A may be a factor in causing a deficiency of acid secretion in the stomach. The most common complaint which may occur in such a condition is diarrhea or frequent bowel movements. The exact cause of this diarrhea is not clear but it probably is related, he thinks, to the changes which have occurred in the lining membrane of the bowel or perhaps to the lack of acid in the stomach.

It would appear that a great deal of further study will be needed to determine to just what extent a vitamin A deficiency damages the intestine and what symptoms may be produced thereby.

The vitamin B-complex is made up of a number of different substances, the most important of which are thiamin, or vitamin B-1, riboflavin or vitamin B-2, and niacin or nicotinic acid. Doctor Wright believes that with a vitamin B-complex deficiency there is an increased movement of the intestine which may cause pain in the abdomen, and diarrhea. Furthermore, the muscles become contracted.

As the deficiency occurs, the muscles become weakened and the movement of the contents of the bowel is slowed down.

With this disturbance of the movement of the bowel, there may be excessive gas formation and the retention of fluids in the intestine. Not only may these changes in movement occur, but also there may be some disturbance in the lining membrane of the intestine.

In patients with excessive gas formation, digestive disturbances and constipation, it has been found that the administration of vitamin B-complex in liberal quantities has brought about great improvement.

Of course, digestive disturbances may come from a large variety of causes. However, in all such instances it is important to determine if the patient's diet is satisfactory and he is receiving adequate quantities of vitamins so that they may be administered if at all necessary.

## Boyle's COLUMN

BY ROMNEY WHEELER  
(Substituting For Hal Boyle)  
STRATFORD-UPON-AVON — Shakespeare is rolling 'em in the aisles at Memorial theater, and some of the biggest belly laughs are coming from delighted American G.I's.

Officers and enlisted men through this famous tourist center—many of them on seven-day detached service for army-sponsored Shakespeare courses. Canadians, Australians and New Zealanders are visiting on a similar educational plan.

For the Americans it's part of the army's redeployment program and the only gripe is that the courses aren't long enough.

Some G.I's have studied Shakespeare's plays. Others are meeting them for the first time and finding, with amazement, that Shakespeare's humor is quite as rollicking as the best music hall variety.

Approximately 30 American G.I's are sent to Stratford each week under an arrangement with the British council which provides leaders for talks and discussions on most of the men—and some nurses, too—stay either at the American Red Cross or at the American Red Cross personnel arrangement tours of historic places associated with Shakespeare.

There's no brass hat formality, and officers and enlisted men frequently engage in spirited arguments across dinner tables in the Red Cross mess.

The G.I's pay the equivalent of \$6.50 and the officers \$14.50 to participate in the program. These amounts provide tickets for five plays and daily luncheons. Morning sessions are devoted to discussion of plays and Elizabethan drama.

G.I's like Pte. James Larzelere of Buffalo, N. Y., former aircraft worker, and T-4 Seymour S. Fisking of Brooklyn, N. Y., former electrical inspector, think the courses could well be for three weeks instead of one and still not give too much Shakespeare.

Wiggers' Two Stations Are Lubrication Centers

A good many motorists are being tempted to neglect their present cars in hopes it will not be so very long before they can buy a new one and from all reports it will not be so many months before new cars will be on the market again.

It is discouraging to be continually having this or that done to keep the old car going but it is necessary and the only way it can be done at all economically is to have some competent mechanic make regular inspections and do the work at once when something is discovered that is wearing out or out of adjustment. Lubrication done at regular intervals regardless of the miles driven is perhaps the best investment any motorist can make. It will save many repair bills.

At Wigger's Super Service Stations on Ellsworth ave. you can be sure only experienced men will do the work. Lubrication work has been a specialty with Wiggers ever since he opened his stations.

Expensive Cabbage

BOSTON—It cost Ong Hing of South Boston 30 pounds of beef for a head of cabbage. The restaurant owner told police he left the meat with a taxi driver while he went to purchase the cabbage. When he returned the taxicab was gone and so was the beef.

A Salem Lady Spit Up Acid Liquids For Hours After Eating

For hours after every meal, a Salem lady used to spit up a strong, acidulous liquid mixed with pieces of half-digested food. She says it was awful. At times she would nearly strangle. She had stomach bloating, daily headaches and constant irregular bowel action. Today, this lady eats her meals and enjoys them. And she says the change is due to taking ERB-HELP. No gas, bloating or spitting up after eating. She is also free of headaches now, and bowels are regular, thanks to this Remarkable New Compound.

ERB-HELP contains 12 Great Herbs; they cleanse bowels, clear gas from stomach, act on sluggish liver and kidneys. Miserable people soon feel different all over. So don't go on suffering. Get ERB-HELP! Lease Drug Stores.

## Now Is Time To Guard Against Fuel Shortage

Secretary of Interior Harold L. Ickes' proposal to send 6,000,000 tons of coal to Europe in the next six months to relieve the anticipated critical shortage together with the reduction to not over 80 per cent for home use in this country compared with last year's tonnage certainly created a condition that calls for more than ordinary planning.

The government agencies have been trying in many ways to encourage home owners to make plans so they will not suffer. One of the most effective measures that can be taken is to arrange for complete insulation. Insulation correctly applied will save more than the 20 per cent reduction.

R. B. Finley, of the Finley Music Co., S. Broadway, is county representative for the Johns-Manville "Blown" Rock Wool insulation. Any building contractor will tell you there is no better product and the agencies that handle this product also maintain a regular crew of experienced workmen who know how to apply it correctly with the least inconvenience to you. He will gladly inspect your home and give you an estimate and arrange for work in time to beat the fuel problem.

## Mother Held After She Tries To Kill Children

WARREN, July 30.—A 29-year-old widowed mother who slashed the throats of her three small children and then her own, was held on an open charge in Trumbull county jail today.

A two-year-old son, youngest of the three, died in St. Joseph hospital but the others—a five-year-old girl and a four-year-old boy—were reported in "fairly good condition." The mother suffered only a superficial wound.

Sheriff Ralph R. Millikin said the woman, whose husband was killed in a steel accident two years ago, apparently slashed the children with a kitchen knife while they were asleep in the family home in nearby Braceville.

After attempting to cut her own throat, the sheriff added, the woman ran nearly three miles down the road before she collapsed.

The children were found in their blood-soaked beds by a neighbor. The sheriff said the woman was too distraught to make a statement.

# Salem A.C. Dropped 8-3 At Park By Kent Twin Coachers

## Six Costly Errors Spell Defeat For Athletics As Charlie Scott Hurls Win

Salem's Athletics, once more weak in the field, dropped another contest 8-3 to a well-rounded Kent Twin Coach Co. team at Centennial park yesterday afternoon before a fair Sunday afternoon crowd.

Not out-done at the plate by a large margin, the Athletics failed to perform well in the field, committing six costly miscues which spelled defeat in no uncertain terms.

Hurler Charlie Scott, a six feet four inch tosser who looked like a giant on the mound, had Salem shackled most of the way. Until the seventh inning, the locals had batted out but four safeties and those were credited to Russ Morrison and Nevin Halverstadt, respectively.

Salem's scoring was shoved into two minor spurges in the first and eighth frames. In the initial frame, after Kent had scored on a walk and a single, the lead-off safety by Morrison paid off when Halverstadt got his first single.

Salem was hog-tied until the eighth. Kent cashed in on three hits and a Salem error in the third to add a pair of tallies to their total. In the sixth, an error, a walk and a single by Rightfielder Jim Orlin tallied two markers, making it 5-1.

Salem's flurry in the eighth — when two more runs crossed the plate made it look like a ball game. Morrison and Gordy Scullion singled to lead off and after two men had gone out, Dutch Taubler made it on an error and the runs scored.

Hopes Shattered

Salem's hopes fell in a hurry in the ninth as two errors in the out-field by Danny Keist and Joe Keppeler, put Pitcher Al Catlos in a tough spot. Jack Howard, Kent catcher, went out to first but Ralph Ensinger, who played a bang-up game at left field, slapped out a single which scored a run.

Frank Stockdale then added another single and the final two runs crossed the platter.

Scott of Kent was credited with the victory, hurling seven-hit ball and fanning three Athletics. He walked none.

Red Allison, who pitched the first six frames for Salem, was credited with the loss. Allison allowed seven hits in six frames, walked two and fanned two. Catlos, who relieved him in the seventh, was tagged three times, struck out two Kent batters and walked none.

The Salem outfit plays here again Wednesday when the Republic Stealers from Niles will perform on the Centennial park diamond at 6:30 p. m.

## Sport Chatter

BY CHARLES DUNKLEY

CHICAGO, July 30.—There is grim prosperity at Chicago's Wrigley field for the first time in ten years.

Leather-faced Charlie Grimm, whose coaching line acrobatics are extra curricular entertainment wherever his Cubs play, has Chicagoans turning somersaults with him these days. He also has them in lines shouldering their way into Wrigley field, where the Cubs are driving toward what could be their National League pennant during his hyphenated eight-year managerial reign.

When the league leading Cubs end their 23-game home stand next Thursday, more than 325,000 will have paid to see them play during the past three weeks.

That's more than some major league clubs have drawn in an entire season.

Now, with practically the same team he inherited from Jimmy Wilson 14 months ago, Grimm is out in front by an even larger margin than at the same time in the Cubs' pennant years of 1932 and '35. With the exception of Don Johnson, second baseman, and Andy Pafko, center field, rookies of last year, and some secondary battery men, the entire cast is a hodgepodge from the Wilson era.

With this showing, it's no wonder Grimm swings added zest to his antics at third base coaching box. When a pitcher hits a homer that pitchers aren't supposed to hit, he topples over backwards in a "dead faint." When a foul liner streaks by his feet in the coaching box, he picks up a mitt, puts his hands on his knees in characteristic defensive style and fields his position.

Grim has Cubs sizzling where it counts most—at the turnstiles. With the attendance around 570,000, the total may reach 900,000 for the full season, provided they keep on winning.

## NELSON ASSURED OF GOLF TOURNEY

By L. E. SKELLEY

CHICAGO, July 30.—That \$10,000 cash prize for first place in the All-American Open golf tournament was as good as money in the bank for Byron Nelson today.

The ruddy-faced Nelson entered the final 18 holes of the 72-hole championship with a record 202 total and a six stroke lead over Harold (Jug) McSpaden, one of his closest golfing friends.

Yesterday Nelson mechanically ground out a 68 to add to previous 66 and 68 scores and go 14 strokes below par for the 54-hole distance.

An estimated 20,000 persons swarming over the fairways generally conceded he would win his fourth All-American title in five starts and easily better the 278 record he established in 1941, the first year of the tournament.

McSpaden, who also shot a third round 68, held a one-stroke lead over Lieut. Ben Hogan, who had a similar margin over Sam Snead, Gene Sarazen, Sgt. E. J. (Dutch) Harrison and Flight Officer Frank Stranahan in the fight for second place.

Stranahan's 210 total was good for a first place tie with Art Doering of Denver in the All-American amateur meet which, with the All-American women's open, is running concurrently.

Stranahan of Toledo shot a 70 for his third round.

## Tribe Takes Time Off To Play Crile

(By Associated Press)

CLEVELAND, July 30.—The Cleveland Indians took time off today from their American league exertions to help the Crile General hospital team dedicate its new diamond with an exhibition game.

The St. Louis Browns snapped the Tribe's five-game winning streak 4 to 0 in the opener of a double-header yesterday but the Clevelanders bounced back behind Jim Bagby's six-hit pitching to take the finale 3 to 0.

Pat Seery's eighth homer of the year with Mickey Rocco aboard in the fourth inning of the nightcap was the big blow as Bagby notched his third straight win and fifth of the season to give the Tribe a 3 to 1 series margin.

Rocco Paces

Rocco made two of the four hits off Al Hollingsworth, cracking a single in the first inning to score Dutch Meyer, who had doubled, with the Indians' first run. The victory maintained the Tribe's sixth place tie with the Browns.

The Redskins failed to bunch their 10 safeties in the opener as Tex Shirley handed veteran Mel Harder his fourth loss against a single victory.

It was a scoreless duel until the eighth when Harder was relieved by Ed Klemm after allowing two singles. Klemm issued a pass and allowed two more hits for three runs.

## HANK BOROWY WIN MARKS FIRST IN NATIONAL LEAGUE

Traded Hurler Marks Up No. 1 Victory For Loop-Pacing Cubs

BY JOE REICHLER

Associated Press Sports Writer

Hank Borowy, whom the pennant-hungry Chicago Cubs purchased from the New York Yankees only last Friday for a reported \$100,000, already has begun to pay dividends on the investment.

The frail-looking right-hander, whose departure from the American league via the waiver route caused Owner Clark Griffith of Washington to go up in arms over the waiver clause, made his National league debut a successful one yesterday by pitching a 3-2 victory over Cincinnati. The Cubs scored a double triumph over the Reds. When Hank Wyse won the opener, 4-1 for his 15th win, tops for National league hurlers.

Fordham Hank limited the Reds to seven safeties, and after yielding single tallies in the second and third frames, held the Redlegs scoreless the remainder of the contest. A home run by Bill Nicholson in the first with one on got Borowy off to a good start.

Borowy came close to seeing his game tied in the ninth, but a fine throw by Harry Lowrey cut down Frank McCormick trying to score from second on Eddie Miller's single.

If President Larry MacPhail of the Yankees felt any remorse over Borowy's fine showing with the Cubs, he must have been comforted by the Bronxites double win over Connie Mack's Philadelphia Athletics, 2-1 and 11-3.

Bonham Stops A's

Ernie Bonham outlasted Bob Newsom and Steve Gerkin in 10 innings of the opener, with Gerkin, who hasn't won a game this year, charged with his 11th loss. The second was a romp for Bill Zuber.

Brooklyn handed the slumping Boston Braves a double licking, 5-2 and 15-4. Goody Rosen and Augie Galan, with six hits each, led the Dodger attack. Galan driving in eight runs.

The Cardinals divided a double header with Pittsburgh. The Pirates won the opener, 9-6, in 10 innings and the Redbirds, with Lefty George Dockins gaining his

first starting victory of the season, winning the second 6-4.

A Detroit crowd of 33,789 saw the Tigers come from behind to defeat the Chicago White Sox, 4-2, in a single contest. Al Benton won his ninth for the Tigers.

Tex Shirley of St. Louis and Jim Bagby of Cleveland swapped shutouts as the Browns won the first 4-0, and the Indians the second 3-0. Bob Johnson joined the 2,000 hitters club by poling four hits, two doubles and two singles, to lead Boston's Red Sox to an 8-4 victory over the Senators.

GOODY ROSEN AND AUGIE GALAN, Dodgers — Rosen made three hits in each game and Galan drove in eight runs, six in nightcap.

The Pirates beat the Braves twice, 5-2 and 15-4.

ROGER CRAMER, Tigers — Hit two run double to break 2-2 tie with White Sox and give the Bengals a 4-2 victory.

BOB JOHNSON, Red Sox — Reached 2,000 hit club with four safeties and scored three runs in 8-4 Red Sox triumph over the Senators.

## MULLINS-SINCLAIR TO SETTLE ROUND

Mullins, still the king pin in Class A softball at Centennial park, will tangle with a title-seeking Sinclair Oil squad at 6:30 tonight to determine which squad is champion of the second round of play.

Mullins copped the first round title with six wins and a single loss and came through with three wins last week to finish in a tie with the Oilers. Sinclair, twice victors over Mullins, will attempt to pull the stunt once more that no other squad has achieved this year.

Mutt Schaeffer will hurl for the Oilers and Francis Lanney for Mullins.

## Cautious Carroll Widdoes Satisfied With Practice Showing Of '45 Buckeyes

By HAROLD HARRISON

COLUMBUS, July 30.—Cautious Carroll Widdoes still isn't claiming any Big Ten football championships for his 1945 Ohio State grid team but the Buck mentor currently is "very well satisfied" with the squad he expects to send into action next fall.

Saturday he watched his combination of youthful Freshmen and seasoned veterans battle it out for 65 minutes under the worst possible weather conditions and reported:

"I am very well satisfied with the way the boys operated, in view of the conditions. They were hitting hard and when the first two teams in particular were in there it was plenty rugged.

"Some of the boys really looked good in competition."

In that connection he mentioned Bill Diel of Canton and Jim Fout of Portsmouth, both of whom performed with the Reds (the second and third teams) which surprised the 3,500 rain-soaked fans by giving a 14 to 12 beating to the Whites (the first and fourth teams).

The game wound up the summer practice session. The Bucks' first game will be on Sept. 22 against the Iowa Seashawks at Iowa City.

Another lad to come in for post-game praise from Widdoes was Jack Lininger of Van Wert, a fullback in High school who has been converted into a center.

The slippery going made things tough for two of the most highly touted backs — Alex Verdova of Lakewood and Jerry Kral of Toledo — but Widdoes apparently has no worries about their ability to produce.

Sarringhaus Shines

Paul Sarringhaus of Hamilton, the 1942 veteran who has been discharged from the Army also brought plenty of joy to the fans. He had one 38-yard run that helped set up the Whites' first touchdown and he

THESE DRAMATIC PICTURES taken from a newsreel show a flame-thrower  
in action with the veteran 7th Australian Division during its advance  
on Jap-held Borneo. The enemy hiding in a native hut refuses to sur-  
render. A flame-throwing infantryman lashes out with his deadly fire  
and the Jap emerges a mass of flames. The fire proves too much (bottom)

(Continued from Page 1)

less handled with extreme care. Any  
sweeping experiment in state own-  
ership, and the consequent displace-  
ment of private enterprise, would  
be bound to produce a big change.  
and whether it would be for the  
better or for the worse is one of  
the imponderables. Certainly it  
would affect not only England but  
foreign countries, including the  
United States. Britain is a mighty  
cog in world economy.

Precisely because it is an expe-  
dition into the unknown, many ob-  
servers believe that the laborites  
will proceed circumspectly. Prob-  
ably the first changes will include  
nationalization of the coal mines  
and transport. So far as the mines  
are concerned, one feels sure that  
the majority of English people will  
welcome the change if for no other  
reason than to better the plight of  
the great army of miners who long  
have suffered terrible poverty.

Wholesale nationalization over-  
night doesn't seem likely. Prime  
Minister Attlee's government is  
making its experiment at one of  
the most trying times in Britain's  
history. It faces a tremendous task  
of post-war rehabilitation, and the  
people want quick action in provid-  
ing better rations, more clothes, new  
homes. They won't stand for de-  
lays due to experimentation in na-  
tionalization.

Should Major Attlee make mis-  
takes, he will find a loyal opposition  
from "his majesty's loyal opposition"  
—now the defeated Conservatives,  
headed by Winston Churchill. The  
former prime minister's skill in ad-  
ministering verbal chastisement is  
famous, and commons always has  
feared his facile tongue.

Back in the days when the late  
Ramsay MacDonald headed the first  
labor governments, Churchill used  
to make his opponents squirm. I've  
seen him lash MacDonald until the  
latter's face was flaming and he  
was slumped down in his seat until  
he seemed to be sitting on the  
middle of his back. Yes, Churchill  
will keep the government on its  
toes.

## NEW YORK CRASH IS FATAL TO 13

(By Associated Press)

NEW YORK, July 30.—The Em-  
pire State building re-opens for  
business today, despite the shatter-  
ing impact of an eight-ton army  
bomber which struck it Saturday  
morning, killing 13 persons and  
smashing an 18-foot wide gap in  
its north wall.

Announcement of the re-open-  
ing came from Lt. Gen. Hugh A. Drum,  
president of Empire State, Inc.,  
who added that only the observa-  
tion tower of the 1,250 foot struc-  
ture would remain closed. He said  
a thorough inspection had found  
no structural damage.

An army board of inquiry checked  
the wreckage on the 79th floor of  
the building—913 feet above Fifth  
ave.—for causes of the spectacular  
crash.

Army officials made no definite  
statement regarding damage to the  
building, which Gen. Drum at first  
believed would amount to \$500,000,  
but later said could not yet be ac-  
curately estimated.

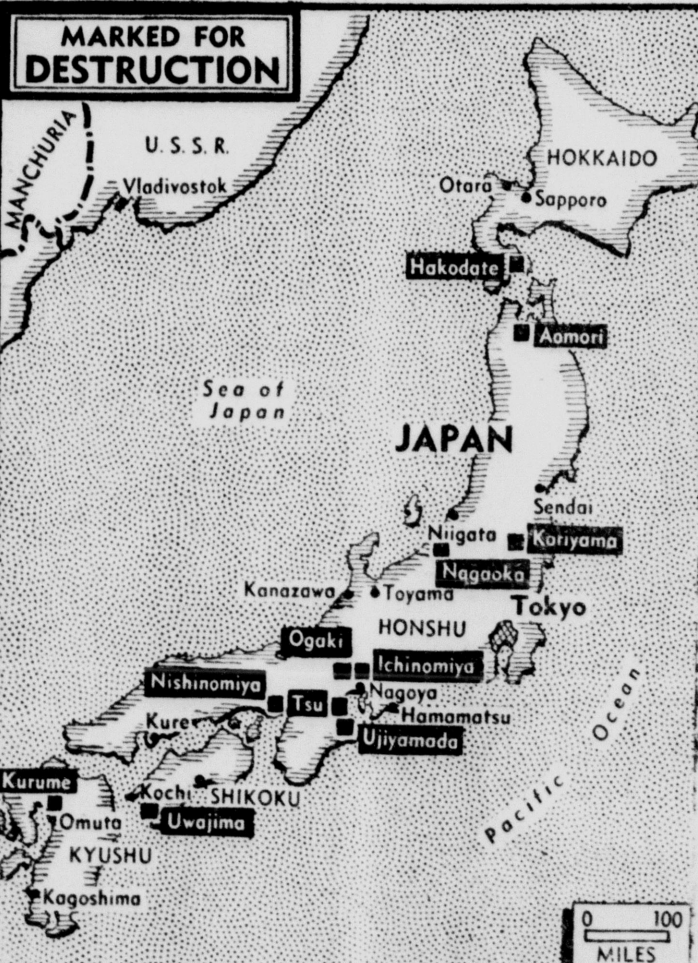

However, army public relations  
officers said in similar cases the  
army ordinarily has assumed all  
responsibility.

Eight of the 13 crash victims had  
been identified yesterday, including  
the three aboard the B-25 twin-  
engine "Billy Mitchell" bomber  
bound for the Newark, N. J., air-  
port.

The three men were Lt. Col. Wil-  
liam F. Smith, Jr., 27, Watertown,  
Mass., the pilot; T. Sgt. Christo-  
pher S. Domitrovich, 31, Granite  
City, Ill., plane engineer, and Avia-  
tion Machinist Mate Albert G.  
Perna, 19, Brooklyn, who had  
hitched a ride on the plane.

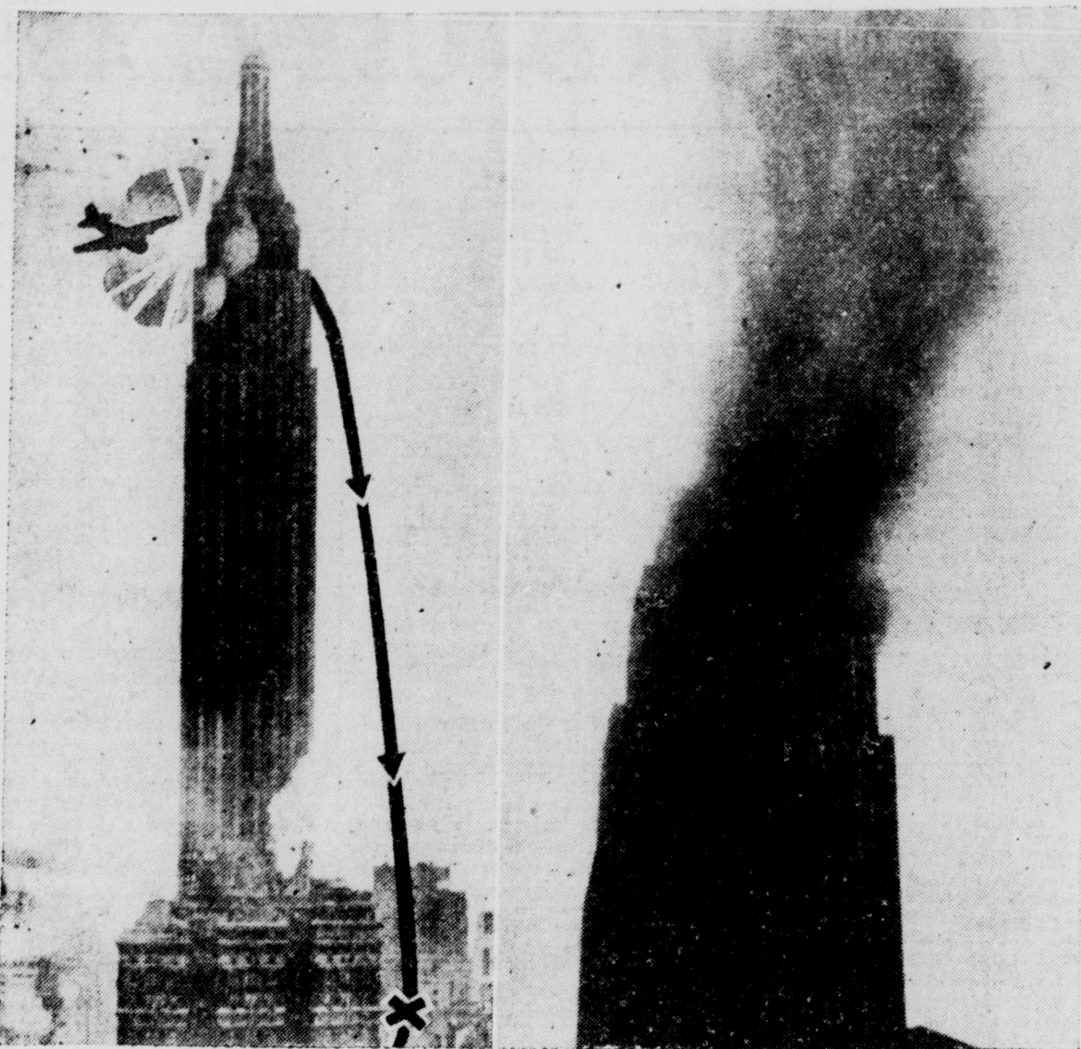

Most of the remaining victims  
were women stenographers em-  
ployed in the 79th floor offices of  
the National Catholic Welfare con-  
ference, caught beneath falling of-  
fice partitions when the heavy  
wreckage of the plane hurtled  
through the building.

## Marked For Destruction

As evidence of its scorn for Japanese defensive abilities, members  
of the United States 20th Air Force are "calling their shots" these  
days. They have notified the Japs that the 11 cities designated by  
black-bordered type above are slated for early destruction unless  
Japan quits.

## Where Bomber Rammed Empire State Building

The approximate point where a B-25 Army bomber crashed into a fog-shrouded Empire State build-  
ing, some 79 floors above New York City streets, is indicated on photo at left. The plane exploded and  
much of the wreckage plummeted along the line shown to the roof of the Waldorf building, marked by  
cross. Photo at right shows flame and smoke pouring from the building, the top of which is concealed by  
fog. (NEA Telephotos)
